FE WINDSURFING CHILE – 13-14 March

Pictures tell everything. Our fleet of FE sailors enjoyed a great weekend of competition. Most of the fleet did not imagine how good the Club de Yates Recoleta was as a sailing venue for this discipline, flat water, steady winds and very comfortable accommodations. Add on top of this the perfect ingredient, 20 very experienced sailors.

The result was one of the best National Championships to date in our country, with 6 complete races, electrifying starts, a very compact fleet, and off the water fun and fine barbecues. In summary, a great group of friends/competitors enjoying a weekend of FE racing.

Friday was the training day for those that could afford to miss a working day, of course Recoleta welcomed them with steady wind and the locals had the barbecues running upon their arrival.

Saturday started with each competitor receiving their Bacardi shirts, with each competitor's name and sail number. All in uniform with the Buzz Energy lycra shirts we hit the water. It was great seeing the entire fleet with the same gear, sails, shirts, and each sail with their number and name. With a perfect field and a very fast track competition was set.

It is clear that FE has a great and promising future, and this is just the beginning. In the end, we ran 3 full races on Saturday, after the racing it was time for a massive barbecue, a show with the pictures and videos of the day. Of course, things ended up at the local disco for some of the competitors.

Sunday started a little earlier, and after a photoshoot 3 more full races were completed after which Eduardo Herman confirmed his lead. Cote Miranda came in second followed closely by Cesar Zavala in third.

It is great to see newcomers as well, specially those participating for the very first time, as Felipe Pizarro, Rodrigo and Felipe Valdivia and Rodrigo and Joaquin Desriviers. In the women's fleet, 2 Peruvian friends visited us and did really well, thanks to Ale Vernal and Caro Butrich and congratulations to Rossana Valdivia who returned to windsurfing after a long hiatus.

Of course, we'll keep you updated on our upcoming race, which is to take place in April 2 and 3.
